

Three Waves-nose clip (EN)

Why the three Waves-nose clip...?

Perfect fit and high wearing comfort combined with quality materials and a stylish appearance. ThreeWaves produced in Franconia / Germany nose clips with high quality standards which leave neither the torrential still play the role or spot training in the lurch. threeWaves... nose clips stay where they belong... on the nose!

Product Details:

- Double lacquered flexible metal bracket for individual adjustment to the nose.
- molded from high-quality silicone pads by dermatologically harmless silicone for very long life by application-specific use.
- Our use of silicone is hydrophobic, means water -repellent and thus displaces the water film between the silicone pads and skin, resulting in a perfect fit of our terminals in a humid climate and comfortable to wear with its average shore hardness is.
- The silicone pads on the nose contact surfaces are roughened and equipped with mini suction cups, which contributes in addition to the properties of the hydrophobic to further increase liability.
- Very comfortable to wear even over several hours by anatomically shaped silicone pads.
- Tear-resistant and high, about 24 cm. long polyester lanyard for secure attachment.
- Can be put on and adjust with one hand.
- Ideal for whitewater rodeo/play boating, Eskimo training, kayak polo, sea kayaking, etc.
- Absolutely impervious to salt water, chlorine, perspiration.
- threewaves nose clips are handmade in Franconia / Germany.
- Only 5.9 grams in weight.

In my personal opinion, I have use in different activities like canyoning, hydro-speed, and kayak rodeo. For several hour same times and after all the one thing I can say is that I will keep using then and even more I am thinking to have then in all colors available ;)

What are you waiting to get your threeWaves nose clips?!!
